James Dean to Philip Schuyler

March 10, 1776

Oneida

(k, k³²)

Last report in which D. stated that Butler spoke of peace may not be accurate; Oneidas are now distrusted among the Six Nations and are probably poorly informed. Many Onondagas and Cayugas are at Oneida; they came down supposedly for the funeral of Cagy (or Kegg) but have been making speeches of reprimand to the Oneidas. D. believes that the capture of Niagara would stop that place's influence on the Indians.

(b, c)

Western Iroquois tribes beginning to swing over to the British side. They are told that Americans do not like Indians. The Oneidas alone hold an "unshaken friendship for the colonies and a firm "attachment to their council fire at Albany". The Mohawks are working against the colonies, although pretending to be friendly. William Johnson (son of Sir William) is at Onondaga, waiting for news of the council there. Unity of the Six Nations is precarious. Some think that a band of Cayugas plan to deliver a war hatchet to S. when they visit and help to clear the way for a Johnson campaign. Dean is highly respected among the Oneidas. Some Senecas met the Boston delegation to Onondaga and warned them not to visit Oneida on their way to the council.

1779]. Fort Stanwix, empty since 1768, was occupied by the Americans and renamed Fort Schuyler in July, 1776, so the April 1776 date is dubious. Kirkland was stationed at Fort Schuyler (with occasional exceptions) from September 1776 through 1779, so the later dates are possible. The work begins "Awake my Soul -- look up to thy God. Awake my Soul look into thyself. O Thou whose spirit can make these bones to live -- those that are very dry -- may my Barren Soul -- not be left dead." Starting at the bottom of the first page, marginal or interstitial numbers refer to which of the Ten Commandments is being addressed in the adjacent passage.

Sargeant apologizes for not repaying money he had borrowed when Pickering was in New Stockbridge. He reports the fears of Daniel Fowler that a "league of white people" will get the lands of the Brothertown Indians. He indicates ways by which federal control by legislation could prevent raids on Indian lands under state laws. He urges a law to prohibit the sale of intoxicants to the Indians; most of the Stockbridge and Oneida would like such a law. He expresses dissatisfaction with SK's Indian Academy and discusses drawbacks to SK's methods of Indian education.

[Most of the letter is paraphrased; only a small portion is transcribed "word for word".]

He also states that honest men need to be found to be in charge of the mills. SK mentions there is a disagreement between the Oneidas and the Kanghsorge Indians, which should be settled by Chapin or Judge Dean.

Oneida

(a) 3 leaves

SK says that most of his landed property has been stripped and that the accusations against SK sent to the Commissioners in Boston were proved to be groundless. SK says that Sergeant wants the entire removal of SK's mission, and he has had tried to replace SK with Crosby for 6-7 years. SK describes all of Sergeant's plotting against SK. He uses an Indian quote, and then discusses the mutual dislike between himself and Capt. Hendrick, minister of the Stockbridge Indians. SK also mentions a dispute between Sergeant and Occum. SK had in the past supported Sergeant when complaints were levied against him. SK talks about his own search for a replacement missionary to the Indians, and expresses his love for Mr. Crosby. He enumerates the underhanded and uncalled for behavior of Sergeant.

211c. SK to Rev. Alexander Miller

May 24, 1800

Oneida

(a) 5 leaves

SK tells about the state of the Indians and his own experience with them. There is a definite division between the Christian Indians and the Pagans. After much dispute, SK was allowed to occupy a Quaker house, which afforded many more conveniences to him. The question resurfaces as to who should be the Oneidas' minister, SK or Crosby. Miller took a neutral approach to the matter and asked the Indians who they would prefer. SK informs him of a conflict in regard to John Jordan, Mr. Sergeant, and Capt. Hendrick. SK speaks of his affection for Crosby. [This 15 page letter contains references to the State of the Indians, conflict between missionaries, and SK's opinion of the matter.]

SK has had his folio transcribed at last. He is happy to say that an unexpected "union" has occurred between the Oneidas i.e. the "pagans and the Christians". He is anxious for the return of Mr. Crosby. The Oneidas need someone to oversee them. P.S. When Crosby comes, he will probably need an interpreter for a few months. Crosby also needs to be aware of the physical and mental strain he must endure all year round.

Avery advocates fewer "transient preachers", and a more serious adherence to the doctrine. Several societies need missionary aid, more specifically resident missionaries.

The Index

About the Index

This index is a start. It is not the final say on Samuel Kirkland's correspondence, nor does it claim to be. It is hoped that anyone working with these papers will feel free to make corrections and additions to the index that I have begun. The parenthesis after a person's name refer either to his place of residence or, in the case of an Indian, to his tribe, if known. If an individual's first name was not mentioned, he is listed as "Mr." or "Dr.", or some other appropriate title, if known. Misspellings, especially among Indian names, are probably common. I ask that anyone who uses this manuscript be on the lookout for those errors, and be ready to correct them and fill in the "Mr.'s" and the "Indian's". Thank you.

Acknowledgements Page of James T. Freeman from May 1979, *The Correspondence of Samuel Kirkland, 1765-1793: An Indexed Calendar and Senior Project*, by James T. Freeman, Call # HAM COLL HE K62C6 1979, v.1

I trust that it is obvious to the reader that this work would not have been possible without the combined work of many people. First and foremost on my list of thank-yous is my family, who again provided moral and physical for my work. Special thanks go to my mother and my sister Diana who spent a couple of days at school helping me to get the folders into order. I also thank my father, who helped find typists and has otherwise supported my research.

Mr. David Smallen of the computer center also deserves my heartfelt thanks and admiration, for he introduced the modern world into that of Samuel Kirkland. I still have no idea how to work a computer, but Smallen and his staff managed to produce an alphabetized computer printout of my index from a huge pile of computer cards, and for this, I am extremely grateful.

My typists likewise deserve a good deal of recognition. Mrs. Johnson did a quick and efficient job of typing my index (from the computer printout), while Sally Emery put up with late-night visits and telephone calls, a "senior slump" and, worse than anything, my handwriting. The library staff also went out of their way to help my project along. Probably the only student with my "own" study office, I certainly must thank Frank Lorenz, Keith Washburn, Sarah Rutkowski and all the others who furthered the cause of compiling Kirkland's letters. Mr. Lorenz was especially helpful in getting me started and in encouraging me once my work had begun.

I also would like to thank the history department for providing the funds with which this project was typed. I'm really not sure what would have happened if I had had to worry about typing this myself.

Last of all, I would like to recognize the two men who provided the inspiration for this project, as well as most of the technical advice. Walter Pilkington and David Ellis are two bona fide historians who know as much as anyone living about Kirkland and New York State, respectively, so they obviously had much to say about my subject. But I just hope that these two realize how it encouraged me to be treated as if I was making a worthwhile contribution to the world of knowledge and was not just another student writing his paper. Although we did not spend an inordinate amount of time together, my few talks with Mr. Pilkington and Ellis provided the guiding light for my work, and for this I sincerely thank them. Even if I do not continue on in the field of history, I certainly feel that this project was the high point of my Hamilton education, and I hope that others can continually be singled out and encouraged to "do their own thing", as I was.
